

## ARTHUR HALM IS DEAD, VICTIM OF PATRIOTIC WORK

Losing the race with death, Mrs. George Halm failed to reach the bedside of her son, Arthur Halm, before he passed away at the base hospital at Camp Lewis. Learning that her son was dangerously ill, Mrs. Halm left Phoenix Thursday and upon her arrival in San Francisco was notified that he had died on Friday morning. The news was received in Phoenix yesterday with deep regret by the world of friends of the young athlete who was making a splendid record at the officers' training camp. Although the details of his last illness nor the direct cause of death, were not contained in the telegram, it is believed that his ambition to win a commission caused him to overwork too soon after a severe attack of the mumps.

Interested in all outdoor sports, Halm, when in the high school, was made catcher. Later at Stanford university he made the varsity team, accompanying the team to Japan. He was enormously popular at college as athlete, student and socially, belonging to one of the best known fraternities. Returning to Phoenix he took up the business in which his father had been a large stockholder and was made secretary of the Arizona Fire Insurance company. He was considered one of the leading young business men of the city. He belonged to the Country club, the Arizona club and the racquets club and was universally liked.

A few months ago he entered the officers' training camp at American Lake and was studying diligently to receive a commission. A message from Camp Lewis last evening stated that Private Walthall would arrive here Tuesday night with the body.

A telegram received late last evening from Willis Halm, brother of the deceased, who is a member of the aviation officers' training corps stationed at Dallas, stated that he would arrive in Phoenix Monday morning.

### FINLAND, SOCIALIST HOTBED

(The Argonaut)

Sweden does not want Finland, according to Dr. Fridtjof Nansen. The whole culture and civilization of Finland have so completely changed since it was taken by Russia in 1809, it has become such a hotbed of socialism and so entirely Finnish rather than Swedish, that Sweden would not want it back under the circumstances.

## Decaying Teeth Create Poison

You cannot take poison even in small quantities without making it very difficult for your system to get rid of it.

Decaying teeth and rotting food in the cavities are constantly generating poisons which are absorbed into the system and cause considerable trouble.

Therefore if your teeth are bad they are taxing the system to the limit and there is a possibility your health may break under the strain. There is but one thing to do and that is to immediately seek the services of a reputable dentist.

As a result of an examination, for which I make no charge, I will soon tell you just what must be done to remedy your condition. Don't hesitate to come to me as I have had years of successful practice. A dental nurse is always in attendance. Make your appointment today.

## Salt River Valley Young Men Rally to Colors

**F**IRST Lieutenant James S. Higley and his brother Sergeant Thomas H. Higley. The former entered the first officer's training camp, made good and has been promoted to higher rank. The latter has been in the Marine corps since the outbreak of the war in 1914 and is now a warrant officer. Both are making good in the service of their Uncle Samuel just as they did in civil life before going into service.

There are hundreds of young Phoenix men who are in the service of the red, white and blue, and it is a constant source of pride that so many young Phoenix men have so quickly been promoted in the various military branches. The accompanying pictures are of the only two sons of S. W. Higley, formerly proprietor of The Arizona Republican, now a rancher and stockman near Phoenix.

Lieutenant James S. Higley was a student at Stanford University, and was one of the first to join an officer's training camp, from which he received a commission as second lieutenant. Soon after getting into active service, he was made a first lieutenant, and is now on duty at Camp Lewis, Washington.

Thomas H. Higley in August, 1914, immediately following the outbreak of the great war in Europe, joined the United States marines, since which time he has seen service in

nearly all parts of the world, and past few years. He holds a sergeant's rank in the 8th company, 10th regiment, very important missions during the United States marines.

## NEW CONTRACTING FIRM STARTS HERE

A new contracting and building firm has recently established itself in Phoenix. It is composed of W. F. Smith, a Texas man, with H. B. Singleton and C. E. Mitchell of Alamogordo, New Mexico.

These men have purchased the Arizona Lumber and Mill company from A. G. Smith. They now own the lumber yard and with additional machinery installed now have ready for operation a complete planing mill plant. A. G. Smith and son will still retain the saw mill and lumber making plant located at the same place.

W. F. Smith has been made president of the company and will act as manager and agent. He has been in the building and contracting business for 25 years; he has two sons in the army who when the war is over will join his company in the contracting business. H. B. Singleton has recently arrived with his family and C. E. Mitchell is now here on the ground.

The company has already two buildings under contract which are now in course of construction, one located on Fifth street, and the other on Sixth street in Churchill Addition.

The plant at Eighth and Madison streets has been re-equipped and is now in a position to do all kinds of mill work for general trade as well as the work for the firm itself.

### WATTERSON ILL

LOUISVILLE, Ky., April 12.—Henry Watterson, editor of the Louisville Courier Journal, is ill here at the Norton Memorial infirmary. His condition, however, is said by the attending physicians not to be serious.

## PRINCE OF WALES, LITTLE MORE THAN BOY, TAKES SEAT IN HOUSE OF LORDS

H. R. H. Prince of Wales (right) and Lord Claude N. Hamilton.

Although he is little more than a boy and has just finished his schooling the son of King George of England takes a hand in the conduct of the war. H. R. H. Albert, Prince of Wales, is shown in the photograph on his way to the House of Lords with Lord Claude N. Hamilton.

## DOFF THE DICER DROP THAT CAP DON THE STRAW

"Ye who have cloth hats prepare to shed them now."

The fiat has gone forth and also fifth that on and after Wednesday, April 17, 1918, straw hats are the thing in the city of Phoenix.

Those who come down the street with cloth or felt hats are decidedly out of it. Straw hats will be king Wednesday and all over the city the shops, which handle hats will be there with the goods, ready and willing to greet the warmer days with appropriate headgear for whomsoever.

Hang that old hat on its peg Tuesday night; hang it there for fall for it has good service left in it, and don a new straw. Then come down town and be in the midst of things, monarch of all you survey, you reign there is none to protest. Lord of the asphalt and walk, your hat is the latest and best.

Just to be keeping, warmer days are predicted for the middle of this week, so if you do not have on a straw hat by Wednesday, you will wish you had.

and devils, and songs of freedom for the English peasantry, and on a small holding of twenty odd acres you will find him moving his corn with a scythe. Chances are common and you will come to a little house with an orchard and a van drawn up under the shelter of trees. This is the home of Eric Gill, the sculptor, who cuts wood blocks for Mr. Pepler and adorns the Catholic cathedral at Westminster with beautiful statuary.

### STONE IS BETTER

WASHINGTON, April 12.—Senator Stone of Missouri, whose condition became serious today as the result of a stroke of paralysis last Wednesday, was reported by his physicians tonight as slightly improved. He was resting quietly and his temperature was lower.

### BLACK WALNUT VALUABLE

(New York Sun)

War has sent up the price of black walnut lumber needed in the manufacture of gun stocks, and the demand for the wood, scarce and high in cost even fifteen years ago, is fast using up the available supply in this country. It is seldom quoted today in lumber lists and only a few lumber yards and mills carry a limited amount of it in stock.

### Photography of the Air and Capture of Perrone

(Continued from Page Eleven)

monster gun until one of these "interpreters" happened to notice the slight singing of the leaves of a small wood. A series of photographs soon revealed that the gun was located

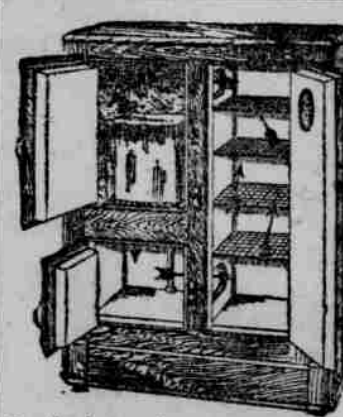

# Quality Is Supreme Here

And when you purchase furniture of us you have the satisfaction of knowing that this big store, with its 31-year record of "square" dealing—stands behind each purchase—"You must be satisfied"—for therein lies our continued success. There are but few stores in the entire west who carry a larger stock of furniture and house-furnishings than we—and to make selection here is comparatively easy. No matter what price you wish to pay, we can please you. Come in and look around—it's a pleasure to show you.

Are you participating in our prize contest this month? We want you to try for one of our big prizes—come in and let us tell you about the plan. Contest closes May 1st.

Get ready for spring and summer—let us help you. A few dollars spent now will make home pleasant and comfortable during the coming hot weather.

for the Leonard.

Of course you cannot go through the hot summer without a refrigerator—one that is reliable—one that uses little ice—one that preserves the food properly. You are puzzled to know what make to buy, because you have heard of so many. We can solve the problem for you. In a few minutes we will show you features which make the "LEONARD CLEANABLE" the refrigerator you want—because it's so different in construction and is made of one piece of metal in food chamber—is absolutely sanitary and so perfectly insulated that all of your money does not go to the ice man—and the beauty is you pay no more

\$10.00 to \$75.00 Less 10% for Cash
